**SANDWICH LAKE** - is still fishing well. We have had good numbers of roach out around the 1lb to 1lb 8oz mark. Perch have also been caught up to the 3lb mark. Well done, **Bob**. A number of crucian carp have also been caught to 3lb. Regular feeding seems to be the way.

**KETTLES LAKE** - has produced its first 20lber this year. **Richard Wright** had a 22lb 10oz mirror as well as a common of 18lb. **Frank Lane** had 4 carp up to 18lb. **Kieran Long** had 3 carp up to 14lb 6oz on boilies. **Dennis Homes** had 4 carp to 13lb and 6 perch to 2lb 2oz. He was fishing over a bed of hemp ground bait and maggots. **Keith Reeder** had a common of 15lb and mirrors to 17lb 6oz.

**PULLENS LAKE** - has had a few carp out. **Richard Stone** had a mirror of 33lb and his mate **Mat** had a mirror of 28lb. **Tony Simms** had a mirror of 29lb 9oz on boilies. **Robert Jones** had a mirrors of 27lb and 31lb 11oz.

**WEST END LAKE** - Numbers of carp have been caught on boilies so far. **Karl Lewis** had mirrors of 29lb 8oz and 33lb 2oz. His mate had a 24lb mirror and a 30lb 5oz mirror. **K Hancock** had a mirror of 34lb. **Neal Bull** had mirrors of 29lb and 28lb.

*Please remember to send those photos and fill in the catch report.*

**Prairie Lake** - we added 4 x 30lb carp including a 32lb ghost leather, in December and early January, plus 20 carp in the 20lb bracket. We also added 12 x 20lb carp to **Kettles Lake**. Whilst removing the silvers from our carp lakes, we also micro-chipped the carp. **Tony Loveless** from [www.chips4fish.com](http://www.chips4fish.com) showed supplied the equipment and showed us how to do the chipping. As carp are caught they will be checked for the micro-chip and chipped if needed, assisting us in checking their growth rates and providing added security of our carp.
